

*Kiwanis Club of Barbados South*  
*President's Message - November 2020*

My fellow Kiwanians!

This is the month of November; the installation parties are over and we have begun our work within our Club to benefit our communities.

Each year we pledge to work together, we pledge to design projects that encourage Kiwanis to move forward together as one entity on the island. This is how we make our presence felt and are able to better assist those within our communities who need us.

During our first month October, Kiwanis Family Month, we began that process where as a Kiwanis Family we got together to build desks for some of our children. Our Kiwanis family, Builders, Key Clubbers, Circle Ks and us, enjoying fun and fellowship while doing good.

This year, COVID-19 has changed our landscape and because of safety protocols we could not include our young K-kids in this exercise. COVID-19 has changed the way we serve, the way we have fellowship with each other, even the words we use when we speak.

If there is any good to be seen to come from the COVID-19, it is that families are spending more time together, but it's not a joyous time for all. Economic constraints have put additional pressures on some of these families who were already struggling to survive.

And so, fellow Kiwanians I challenge you, to work together to find the way forward, and individually to help one person who may need it.

I challenge you to go out there and be Kiwanians, to go out there and be **"AWESOME!"**

*President Sandra*
